

## PREVNet's BEST (Bullying Evaluation and Solutions Tool)

Research shows that more than half of all bullying incidents can be prevented by initiating an effective school-based prevention program.

PREVNet's BEST is a new and comprehensive Bullying Evaluation and Solution Tool that measures the level of bullying in schools. PREVNet's BEST is backed by more than 20 years of research into bullying and healthy relationships and offers teachers and administration proven, evidence-based strategies to help students.

You can find out more by visiting the [PREVNet's BEST web page](#).
