

Family Channel's Teacher's Guide

Thanks to PREVNet, there's a new addition to the Family Channel's StandUP! bullying prevention campaign for Bullying Awareness Week 2013. For the first time, the popular Teacher's Guide is available in French. This guide includes advice to share with students about bullying, classroom activities to encourage inclusiveness and respect, and daily activities for Bullying Awareness Week November 18 - 24. The guide also contains information resources and tipsheets for teachers. You can download the French version of the Teacher's Guide [here](#).

The English version is available [here](#).

PREVNet has worked with the Family Channel on Bullying Awareness Week since 2003 as part of our mission to create a social marketing campaign to provide knowledge, strategies, and tools that will empower children to prevent bullying. PREVNet helped craft the messaging in the Family Channel's Stand UP! Campaign, based on research indicating the important role of bystanders in stopping bullying.
